Workshop

Theatre is more than just performance - it is a way of life. Rooted in expression, creativity, and storytelling, theatre arts shape our ability to connect, communicate, and understand the world around us.

"Theatre Arts as an Art of Living" is an immersive workshop led by Prof. N. Elango, a distinguished expert in theatre and performance studies. This session explores how theatrical techniques can enrich everyday life by enhancing confidence, emotional intelligence, and self-expression. Through interactive exercises, participants will learn to harness the power of voice, body language, and improvisation to engage more effectively in personal and professional settings. The workshop also delves into the role of theatre in fostering empathy and resilience, helping individuals navigate challenges with creativity and poise.

Whether you are an aspiring actor, an educator, or simply seeking personal growth, this experience will help you unlock the transformative power of theatre. Join us and discover how the stage mirrors life itself!
