More About me...

I like to learn different things at a time related to various fields through different platforms. I have immense interest in computer science and technologies related to it and developed few websites as well. I actively engage myself in acquiring new skills related to web-development, cyber security and working of different systems. I enroll myself in new courses available at different online platforms. Currently, I am pursuing 'Web Development in Python and Javascript' from Harvard CS50 and 'Cyber Security' from SWAYAM.
